PROFESSIONAL SUMMARY

IT Support Technician with 3 years of practical IT support experience across end-user support, hardware and software troubleshooting, printer support, Windows environments, Active Directory user support, networking and remote technical assistance. Holds a National Diploma in Information Technology (Software Development) from Tshwane University of Technology.

Experienced in diagnosing and resolving desktop, laptop, printer, peripheral, application and connectivity issues; installing and configuring IT equipment; supporting Windows users and Active Directory accounts; and documenting technical incidents and resolutions.

Strong foundation in Windows 10/11, Active Directory, TCP/IP, LAN connectivity, DHCP, DNS, printer environments, hardware troubleshooting and end-user support.

CORE TECHNICAL SKILLS

- Desktop & Laptop Support
- Hardware Troubleshooting
- Windows 10 / Windows 11
- User Account Administration
- Printer & Peripheral Support
- End-User Support
- LAN / WAN Connectivity Troubleshooting
- DHCP & DNS
- IT Ticketing / Incident Tracking
- Microsoft Office
- Software Installation & Updates
- Tier 1 / First-Line IT Support
- Software Troubleshooting
- Active Directory
- Password Resets
- Remote IT Support
- IT Equipment Installation & Configuration
- TCP/IP
- Network Troubleshooting
- Technical Documentation
- Hardware Maintenance
- Basic Information Security

PROFESSIONAL EXPERIENCE

VUXENI INFORMATION TECHNOLOGIES

IT Support Technician / Printer Technician

August 2023 – Present

Previous: IT Support Intern / Junior IT Support

August 2023 – August 2024

Provide onsite and remote technical support to end users and client environments, including workstation support, Active Directory administration, printer support, hardware/software troubleshooting and network connectivity.

- Provide first-line technical support to users experiencing hardware, software, printer and connectivity problems.
- Diagnose and troubleshoot Windows 10/11 desktop and laptop issues.
- Perform Active Directory user administration, including user account-related support and routine account troubleshooting.
- Assist users with password resets and account access issues.
- Install, configure, maintain and troubleshoot desktop computers, laptops, printers and peripheral devices.
- Provide printer and multi function-device support, including installation, configuration, fault diagnosis and preventative maintenance.
- Troubleshoot network connectivity problems involving LAN connections, IP addressing, TCP/IP, DHCP and DNS.
- Assist users with application, operating-system and general technical issues.
- Perform Windows installations, software installation, configuration and updates.
- Provide onsite and remote technical assistance to end users.

- Respond to reported support incidents and work through troubleshooting procedures to identify and resolve technical problems.
- Record support activities, actions taken and resolutions for technical incidents.
- Escalate issues requiring additional technical intervention while maintaining communication with users.
- Assist with structured network cabling and basic network infrastructure support.
- Support users with computer hardware, peripherals and general workstation configuration.
- Perform routine technical checks and maintenance on IT equipment.
- Assist with technical reporting and service documentation.

KEY TECHNICAL ENVIRONMENT

Operating Systems: Windows 10, Windows 11, Ubuntu/Linux

Identity & Access: Microsoft Active Directory, user accounts, password resets

Hardware: Desktops, laptops, printers, multifunction devices, peripherals

Networking: TCP/IP, IPv4, DHCP, DNS, LAN, VLAN fundamentals

Support: Onsite support, remote support, incident troubleshooting, technical documentation

Applications: Microsoft Office and general business applications

TECHNICAL PROFICIENCY

Operating Systems: Windows 10 | Windows 11 | Ubuntu/Linux

Identity & Access Management: Microsoft Active Directory | User Account Administration | Password Resets | Account Troubleshooting

Hardware & End-User Computing: Desktop PCs | Laptops | Printers | Multifunction Devices | Peripherals | Hardware Installation | Hardware Troubleshooting

Networking: TCP/IP | IPv4 | DHCP | DNS | LAN | VLANs | Network Connectivity | Wireless Networking | Cisco Packet Tracer

Software & Applications: Microsoft Office | Software Installation | Application Troubleshooting | Web Applications

Development: HTML | CSS | JavaScript | PHP | MySQL | SQL | Git | GitHub

IT Support: Tier 1 Support | Remote Support | Onsite Support | Incident Troubleshooting | Technical Documentation | User Assistance
